

(CODEBASICS RESUME CHALLENGE)

Atliq Media is private media company and they are willing to telecast a show on Loksabha Election 2024 in India. Unlike other channels they are more focused on less discussed themes like voter turn out percentage in the country, how the people of India are diving towards the NOTA and furthermore which states are electing the same candidates consecutively from the last 2 Loksabha Elections.

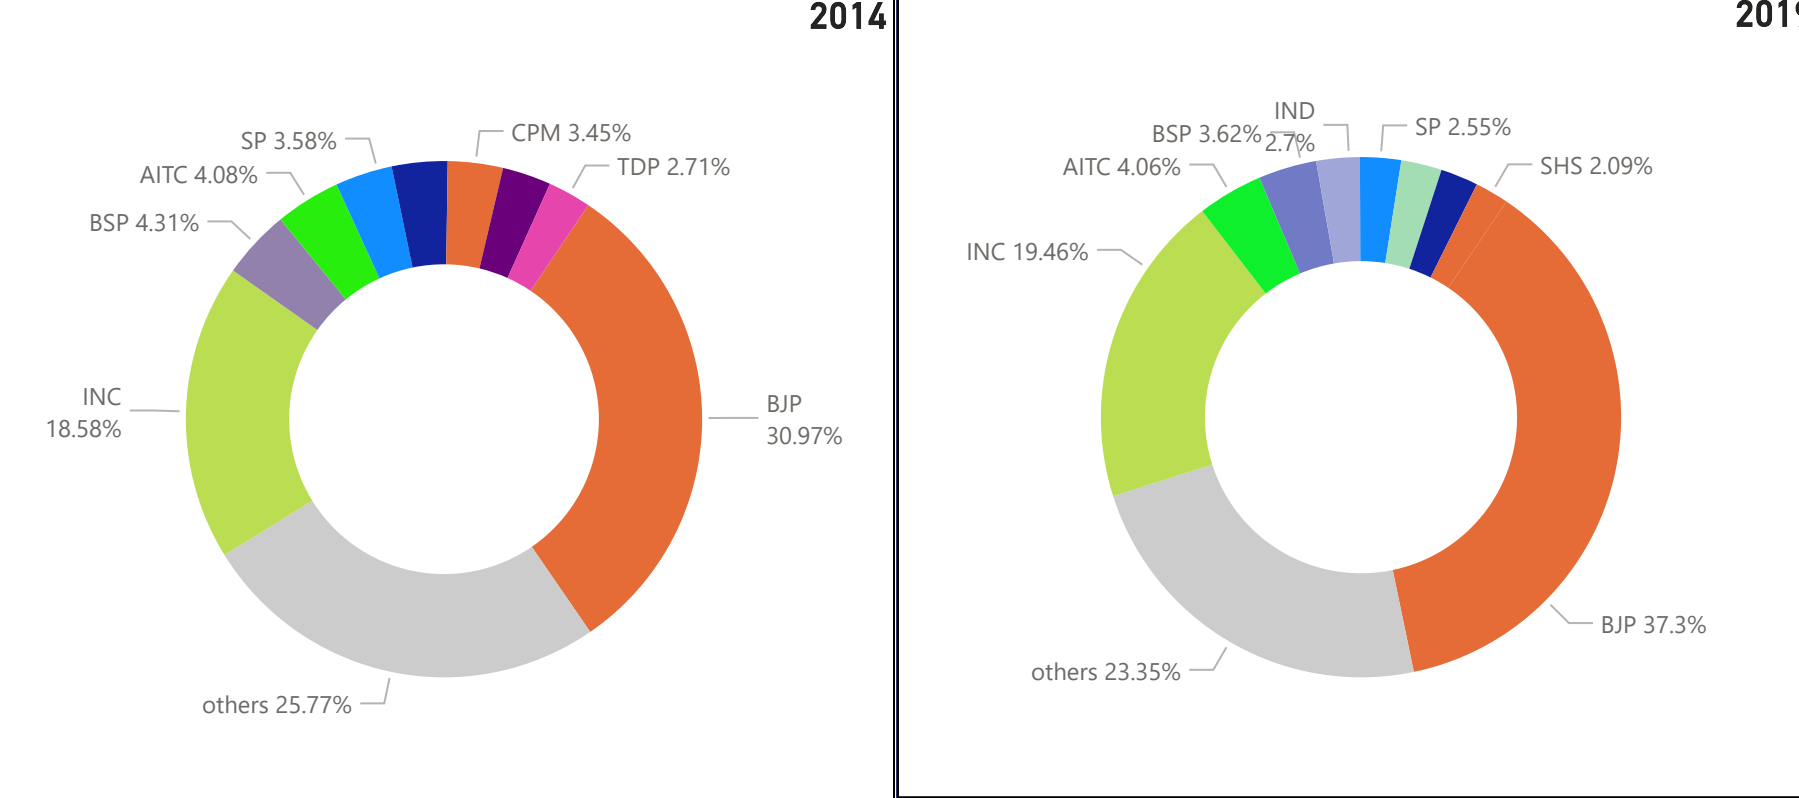

pc_name	state	VoterTurnOut2014	pc_name	state	VoterTurnOut2019	East and north Region of the country tops in both 2014 & 2019 in terms of voter turn out ratio, which determines the seriousness of the citizens to vote and elect their candidate which should be taken as example and make awareness to the people of the country to vote.

Key findings & Recommendations: Govt should make more awareness campaigns across the states like Jammu & Kashmir, Bihar and Uttar Pradesh and other states which gets less than 70% who comes in bottom in terms of voter turn out. In *Bihar* more than 52,000 have voted for NOTA in a single constituency *Gopalganj* which clearly indicates the lesser awareness of the political situation of the country and people prefers wasting their vote. Political literacy is a serious concern and govt should take responsibility, create awareness and educate them in a right path to decrease the volume of NOTA votes.
